

ORGANIC TEA TREE ESSENTIAL OIL

Melaleuca Alternifolia Leaf Oil

PURIFYING

Tea Tree essential oil is extracted from the leaf of the Melaleuca Alternifolia tree, through a distillation process. This oil has a fresh, strong and balsamic smell. In cosmetics, it is used to treat irritated skin, bug stings, burns and vaginal infections for its purifying and balancing properties.

Excellent to prevent pediculosis.

Cosmetic Use: add a few drops of essential oil in another vegetable oil (ex. Almond oil) and massage in the interested area. Or add a few drops in your bath water.

WARNING: for external use only. Use with moderation. Avoid applying the oil on skin exposed to direct sunlight. Do not use it on children, if severely ill or during pregnancy or while breastfeeding. Keep out of reach of children. Avoid contact with eyes or mucosa.

INGREDIENTS

Ingredients: Melaleuca Alternifolia Leaf Oil*, D-Limonene**, Linalool**.

* From Organic Agriculture

**Allergens naturally contained in Organic Essential Oils.

ESSENTIAL OIL*

Purely Extracted through a steam or a cold pressing process, our essential oils are truly a concentrate of nature.

100% Pure, it faithfully represents the virtues, aroma and properties of the plant. Essential Oils have been used for centuries for the care of the body and the spirit for its many components.

They are used in fragrance diffusers as an air freshener, to help you focus or to relax you depending on the chosen essence. Essential oils are excellent in cosmetics diluted with vegetable oils, they are precious ingredients for the care of the body or for a relaxing bath. They can also be used to perfume your linens.
