### DESCRIPTIVE SHEET FOR MAIN ACTIVE COMPONENTS\*

Ingredients	Properties
<b>Organic Castor Oil</b>	Is a vegetable tick oil pressed from the castor beans. In cosmetics is known for its soothing properties that help to retain moisture by forming a protective layer on the skin. On lip balms it is also used to give shine to the product.
<b>Organic Shea Butter</b>	Is a fat extracted from the nut of the African tree Vitellaria paradoxa. It has many properties, rich in vitamins and antioxidant substances. Shea butter is often used as a base for cosmetic and medical ointments, to protect the skin from the sun, or to repair and nourish the skin.
<b>Organic Jojoba Butter</b>	Jojoba Oil or Butter is rich in vitamin E, minerals, zinc and copper and it has hydrating, nourishing and regenerating properties.
<b>Vitamin A</b>	Vitamin A is very helpful in case of irritated and flaky skin. Retinol is a valid support against skin damage caused by weather agents, col, wind and Uv rays. It helps with re-epithelialization and wound healing.
<b>Vitamin C</b>	Also known as ascorbic acid, is necessary for the growth, development and repair

Ingredients	Properties
	of all body tissues. In cosmetics it is often used on anti-aging products that help fight the effects of free radicals, making the lips appear fuller and more youthful.
<b>Vitamin E</b>	Vitamin E is ideal to treat dehydrated and dull skin, subject to weather agents and pollution. It has a major function in its action as a lipid antioxidant to protect cell-membrane lipids against free radical attack.

- Warning: the descriptions listed above are to be referred to the active properties reported in literature. This regulation relates only to cosmetic products and not to medical products. Cosmetic products may include any emulsion, lotion or substance intended for external application (skin, hair, nails, lips and external intimate hygiene) or for care of the teeth and the mouth, whose exclusive purpose is to clean, perfume, change the aspect, protect, maintain their well status or eliminate body odor. (Regulation (CE) n. 1223/2009).
